May 3, 1991

Mr. William Weis (H-8-3)
US Environmental Protection Agency
75 Hawthorne Street
San Francisco, CA 94105-3901

Dear Bill,

I am writing to invite you to a field inspection of the Bluewater uranium sites which are the subject of a recent health advisory by the Agency for Toxic Substance and Disease Registry.

This field trip is scheduled for June 3, 1991. Other members of the field party will include Bureau of Land Management Albuquerque District Office staff; Jackpile Paquate Mine Reclamation Project staff; and the Department's Regional Environmental Officer, Albuquerque. It is hoped that this field inspection will allow us to properly define the various leases and their associated unreclaimed mine areas.

If you are able to participate, I am sure we will be able to provide local transportation. Please let me know as soon as possible concerning your availability at (415) 744-4090.

Sincerely,

William C. Allan
Regional Environmental Assistant
